

CORPORATE PROFILE

About Us

Anagha Softech is a conglomerate of passionate IT professionals focused on developing cutting edge solutions to the clients. We believe in words "Be Convinced, Before Convincing" and follow it in our work. Founded as a small technology support firm 2010, Anagha Softech has leaped in recent years transforming into one of the trusted IT support companies in India. Operating in a global model, combining exceptional on-shore and efficient off-shore resources, Anagha grew to be a company that promotes faster turnaround and superior quality solutions for companies worldwide. Focusing primarily on People, Process, and Technology, Anagha Softech leaves no stone unturned, when it comes to addressing the complex needs of today's IT customers.

VISION

Anagha Softech envisages differentiating factor for its clients by providing game-changing solutions, backed with a constant quest to explore newer technologies and growth strategies!

MISSION

Anagha Softech aims to turn every business into a success story with a cost-effective, result-oriented, and success-driven approach.

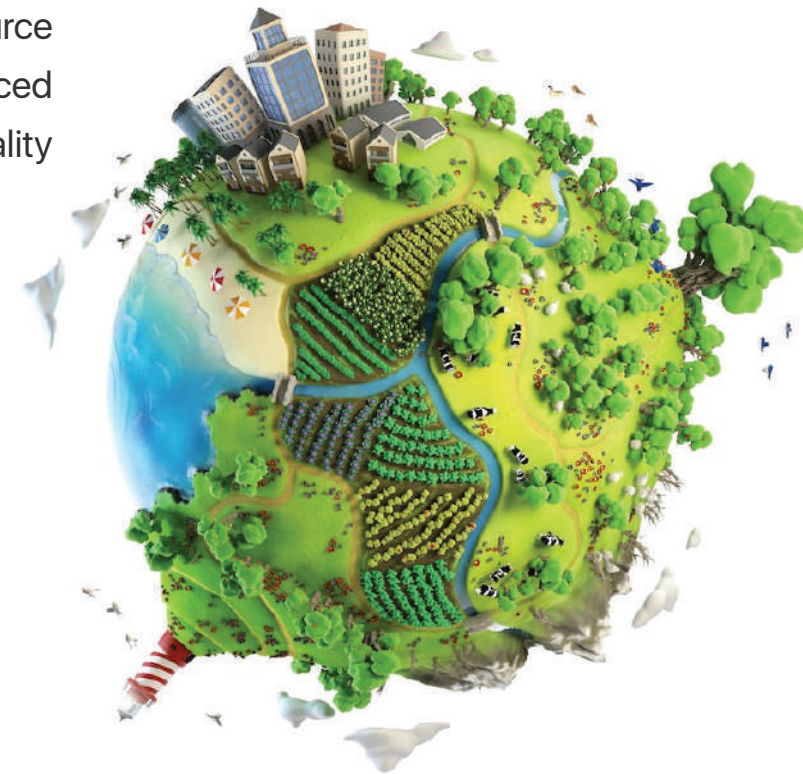

Geospatial Services

We provide GIS services and solutions. We endeavor to provide GIS services to companies requiring help in getting spatial information mapped and interpreted. Our GIS services cater to sectors like Telecom, Electricity, Oil and Gas, Agriculture, Forestry, Transportation, Environment etc. We have cutting edge knowledge of data mapping, feature extraction / compilation, management of information and integrating enterprises thru GIS expertise.

GIS SERVICES

We help organizations to prepare their GIS data which is very tedious and resource intensive process as it requires trained manpower, expensive softwares, advanced hardware infrastructure and well defined process driven development and quality check.

- Utility/AM-FM Mapping
- Topographic Mapping
- Remote Sensing
- Parcel Mapping etc
- Cartographic Production
- Terrain Generation
- Orthophotography

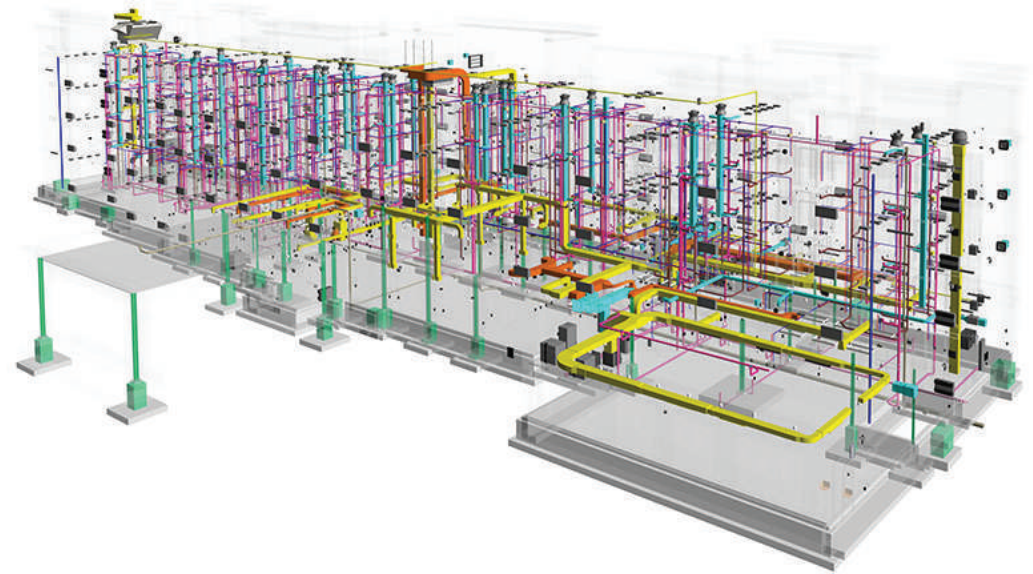

Engineering Services

We offer solutions in Engineering Services mainly like Engineering Design's and drafting in 2D and 3D, MEP services, Structural Analysis, Mechanical, Piping.

MEP SERVICES

(MEP) Mechanical, electrical, and plumbing services are a significant component of the construction supply chain. MEP design is critical for design decision-making, accurate documentation, performance and cost-estimating, construction planning, managing and operating the resulting facility.

We serve wide range of facilities in MEP domain like Architecture, Communication, District Cooling, Electrical, Fire Fighting, Gray Water, Portable Water, Structure and Waste Water.

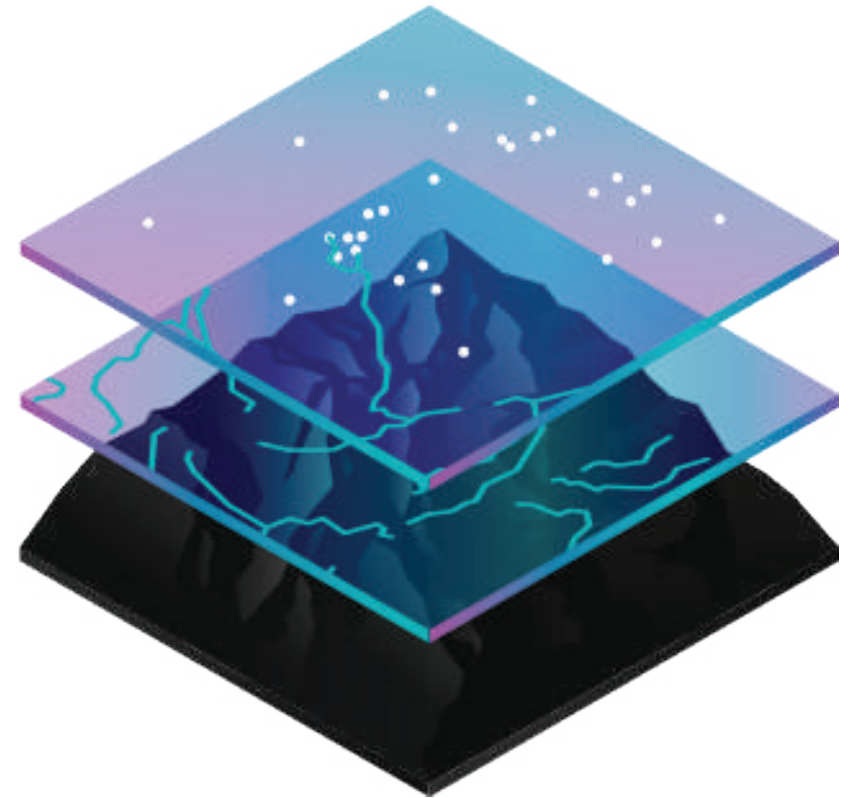

AutoCad

Anagha Softech offers a wide range of Engineering Drawing conversion and drafting services, starting from raster to digital data conversion services. Our Team has extensive domain knowledge in Civil, Structural, MEP (Mechanical, Electrical and Plumbing) and Architecture verticals. CAD is used throughout the engineering process from conceptual design and layout, through detailed engineering and analysis of components to definition of manufacturing methods.

We are delivering our services to many big industries like medical, shipping, railways, automotive, aeronautical, aerospace, education, heavy machineries, pharmaceuticals and many more.

GIS Projects

- Preparation of GIS Base Maps
- Large Scale GIS Base Map Preparation using High Resolution Satellite Imagery.
- Land base data (GIS Datasets Mapping)
- Road Navigation.
- Engineering Drawing Generation Projects.
